

NITRILE SURGICAL GLOVES

Soft-flex Formulation

The new generation of nitrile, engineered to deliver exceptional comfort, elasticity, and tactile sensitivity beyond conventional nitrile formulations—for natural hand movement, precise control, and lasting comfort.

Suitable for Sensitive Skin

Enhanced with STERILE SR, a glove formula by LD TECHNOLOGY™, iNtouch™ surgical nitrile offers a reliable non-latex alternative without added chemical accelerators supporting Type I and Type IV allergy prevention.

**ERGONOMIC FIT • ENHANCED WITH TEXTURED GRIP
NOT MADE WITH PHTHALATES AND NITROSAMINES**

Every **Touch** Matters

Designed for healthcare professionals
Supporting every hand that cares

Why It Matters

From the first incision to the final suture, every touch demands precision, and every movement requires confidence; these gloves help healthcare professionals stay focused on what matters most —the patient.

NITRILE SURGICAL GLOVES

SOFT-FLEX FORMULA BREAKTHROUGH WITH
TYPE I & IV ALLERGY CARE

PRODUCT INFORMATION

Reference number	INTW01NBR
Glove colour	White
Surface treatment	Chlorinated
Sterilisation method	Gamma
Size	6.0 - 9.0

TECHNICAL INFORMATION

Thickness (single wall)	Typical (mm)
Cuff	0.10 - 0.11
Palm	0.14 - 0.15
Finger	0.16 - 0.18
Length	290

STANDARD COMPLIANCES

ASTM D3577

QUALITY STANDARDS

ISO 9001 | EN ISO 13485 | ISO 14001
ISO 45001
